SKILLS

- **Languages**: C, C++, Java, Python and JavaScript.
- **Frameworks & Libraries:** ReactJS, NodeJS, HTML & CSS.
- **Tools/Platforms**: MySQL, AWS, Docker, Git/GitHub and Jenkins.
- **Core CS Fundaments**: DBMS, OS, SQL & OOPs.
- **Soft Skills**: Problem-Solving, Team Player and Adaptability

PROJECTS

Python Testing Pipeline | GitHub — Jun' 26 – Aug' 26

- Developed a Python-based application with an automated testing pipeline to validate application functionality.
- Integrated Pytest, Flake8, and Coverage to automate unit testing, code linting, and test coverage analysis.
- Achieved **90%+** automated code coverage using Pytest and Coverage, identifying and validating critical application code paths.
- SonarQube for static code analysis and quality-gate monitoring, with JUnit and HTML reports for CI visibility.
- Containerized the application using Docker and automated build, deployment, and health-check stages through Jenkins CI/CD.
- **Tech stack**: AWS, Docker, Git, GitHub, REST APIs

Cloud File Storage & Sharing Platform | GitHub — Jan' 26 – Mar' 26

- Built a **Flask-based file storage platform** with JWT authentication, user-specific file management, and REST APIs for secure upload, download, and deletion.
- Leveraged **Amazon S3** for cloud-based file storage with private bucket access and IAM-controlled permissions, replacing local file storage with scalable object storage.
- Implemented a responsive **HTML/CSS/JavaScript** dashboard for authenticated users to upload, view, download, and delete files with metadata stored in SQLite.
- Added file validation and error handling to manage upload failures and ensure smooth file management operations.
- **Tech**: Python, Flask, REST API, AWS S3, IAM, HTML, CSS & JavaScript

TRAINING

DevOps Fundaments Code to Deployment | **LPU** | Certificate — Jun' 26 – Jul' 26

- Gained hands-on experience with **Docker and Kubernetes** for containerization and container orchestration.
- Worked with **Terraform** to understand Infrastructure as Code (IaC) and automate infrastructure provisioning.
- Used **Git & GitHub** for version control, repository management, and collaborative development.
- Learned **Jenkins** and CI/CD concepts to automate build, testing, and deployment workflows.

CERTIFICATES

- Cloud AI Associate | **Oracle** | Certificate — Aug' 26
- AWS Academy Graduate | **AWS** | Certificate — May' 26
- DSA using C++ | **NeoColab** | Certificate — Jan' 26
- Programming in C++ | **Infosys** | Certificate — May' 25
- Programming in C | **CodingTantra** | Certificate — Jan' 25

ACHIEVEMENTS

- **Smart India Hackathon (SIH)** – Participated in the college-level internal hackathon and Contributed to developing a prototype solution. — Sept' 26
- Solved 145+ **LeetCode and Hacker Rank** problems on DSA — May' 26
- Qualified for the final round of the **BYTE Hackathon** by collaborating with a team to develop and present a technology-based solution. — Aug' 25

EDUCATION

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.76*** — Aug' 24 - Present

Innocent Hearts School — Model Town, Jalandhar
Intermediate; ***Percentage: 78.4*** — Jul' 22 - Mar' 24

Innocent Hearts School — Model Town, Jalandhar
Matriculation; ***Percentage: 78*** — Feb' 21 - May' 22
